

# **SPEAKER PROGRAMME**

## 2019

## NEO MORETON

EXPLORING SURPRISINGLY SIMPLE  
WAYS TO INSPIRE GENUINE  
PERSONAL AND PROFESSIONAL  
TRANSFORMATION.

A meditating yogi with a law degree, British born Neo Moreton's perspective is always surprising, hugely engaging and wildly inspiring. The founder of the BYOND creative collaboration for leaders programme, he loves facilitating deep human-to-human connections that elevate humanity by accessing the wisdom within.

Neo founded BYOND to fuse the worlds of creative leadership and inner wisdom. After daily encounters with people lacking authentic connections, craving creative nourishment and longing for purpose, he now invites everyone to go BYOND in order to achieve both personal and professional transformation and bring work back to life.

Neo graduated from Law School in the mid 90s and flung himself straight on the dotcom rollercoaster. But after an abrupt wake-up call on 9/11, he quit the internet gold-rush and chose to put people before profit.

Educated at Columbia Business School (NY) & IE Business School (Madrid) & THNK School for Creative Leadership (Amsterdam), Neo is the Founder of Stockholm's Urban OM Centre for Yoga & Meditation and Co-Founder of the New York charity Reach Within.

Today Neo shares the core BYOND methodology in a series of talks:

### **Re-programming the Business Paradigm**

If most leadership training is a software upgrade, BYOND is a complete OS overhaul. This bitesized BYOND experience (1.5-2 hours talk with experiential exercise / full day programme) dives into the very concept of creative leadership, the power of collaboration and how shifting the current paradigm is crucial in sustaining the future of business.

### **Looking for truth? Search yourself, not Google**

What if the answers to life's biggest questions are closer than we think? Explore the tantalising concept that personal connections are the key to unlocking valuable insight.

### **Get real**

Honesty. Authenticity. Easy to talk about but harder to put into practice. This provoking talk reveals how daring to be real is a powerful catalyst for personal and professional transformation.

### **Can tech make us more human?**

In a world of AI and VR, can technology make us more real? Explore the cloud, crowd-sourced wisdom and how tomorrow's tech might just put an end to stupid decision-making.

### **Wisdompedia**

We're used to having unlimited information at our fingertips. But can you imagine an open source where questions are more powerful than answers?

### **Bringing work back to life**

What if work could be a transformative platform for deep personal development? An inspiring and thought-provoking intro to the core principles of BYOND methodology.

To book Neo to speak at your event, fire an email to
